

PatientWeb System Updates

The following updates have been made for the PatientWeb system.

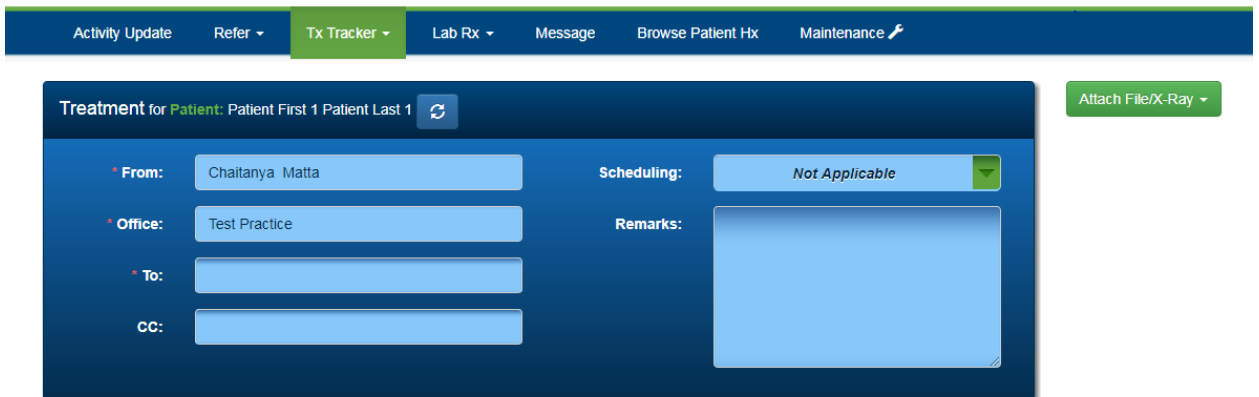

1. Patient names is included in all messages

Subject: "Patient Name"

2. On Tracker screens, include a new option in the scheduling dropdown and make it an optional field.

Change the "None selected" to "Not Applicable" in the scheduling dropdown.

3. On Tracker screens a new field “Completed Date” was added.

The screenshot shows the 'Add Implant Order' form with the following fields:

- Sub Category: None selected
- Treatment: None selected
- Lot Number: [text input]
- Reference Number: [text input]
- Next Visit: [text input]
- Next Visit Reasons: None selected
- Completed Date: mm/dd/yyyy (highlighted with a red box)
- Implant Code: [text input]
- Healing Abutment Code: [text input]

On the right side, there is a tooth chart diagram with labels: 1-16 UPPER, 17-32 LOWER, RIGHT, LINGUAL, LEFT. An 'Add +' button is located at the bottom right.

4. Under the Tracker, a new item was added to the dropdown selection for Manufacturer when Implant is selected for Treatment.

The new option under manufacturer is “Nobel Parallel”

The screenshot shows the 'Add Implant Order' form with the following fields:

- Sub Category: None selected
- Treatment: Implant
- Manufacturer: Nobel BioCare
- Implant Type: None selected
- Lot Number: None selected (dropdown menu is open showing options: Nobel Active, Nobel Replace, Nobel Speedy, Nobel Parallel, Branemark)
- Reference Number: [text input]
- Next Visit: [text input]
- Next Visit Reasons: None selected
- Completed Date: mm/dd/yyyy
- Implant Code: [text input]
- Healing Abutment Code: [text input]

The tooth chart diagram is visible on the right side of the form.

5. Tooth Chart is now only required for Extraction, Bone Graft and Crown lengthening. Else it should be optional.

6. Skype extension was added to this website.
